

## LLW X EVENT DESCRIPTIONS

### *12 Step Meetings*

This year we have both a morning and an afternoon 12-step meeting available so you can choose which time fits your needs. Times and locations are in the daily schedule. These meetings are peer led. **Note:** What's said here stays here.

*Friday, Saturday, and Sunday*

### *D/s Peer Group Discussions*

We are trying something different this year (blame last year's switch and sub discussions if you hate it). The Dom and sub groups meet at the same time and the switch discussion is set at separate times. If you're still questing on your identity, you can try out one meeting of all three groups to see where you may best fit. Times and locations are in the daily schedule.

*Thursday, Friday, and Saturday*

### *Cards, Games, etc.*

Tired of the dungeon? See if anyone has a ticket you can ride in the Main Lodge.

*Nightly, 10 pm Main Lodge*

### *Midnight Movies*

Choose a flick to share with friends. Raunchy porn? Classic romance? Silly sex farce? You make the call.

*Nightly, Main Lodge*

**Thursday, August 19**

***Leather spirituality:***

***God is in this dungeon***

The thud of a flogger on your back. The sound of a whip being cracked. The taste on the tongue while licking the boots of a hot Dominant. The smell of hot wax as it's being poured down the body. The look in a sub's eyes after they have reached their "forever place."

Whether in a dungeon or during a scene, the physical senses one experiences provides a gateway to understanding BDSM in a spiritual and sacred manner; unique only to the dungeon/playspace. Join in a discussion to share from your perspective and be ready to be enriched by and connected to the experiences of fellow campers. This will be a good way to begin connecting to the essence of Leather Levi Weekend. Namaste.

### ***When Master hurts....***

The Dominant – strong, determined, tough, in control - but not invincible. What happens when the Dominant in a D/s-M/s relationship is afflicted with pain, be it physical or emotional? It's not a subject we like to think about but is more common than we like to admit and we often must find ways to handle it. What responsibilities does the Dominant have to her/him self and to her/his submissive or slave? How can s/he help that bottom feel safe and guide that boy or girl on how to use his/her talents to help the Dominant through the pain? This class will cover the various types of physical and emotional pain that a Dominant may have to manage and will also discuss ways a person in service can help, ease, and support his or her Master, Daddy, Mistress, or Top. At some point every Dominant has to deal with one kind of pain or another. Join us as we explore ways to use the D/s – M/s dynamic to overcome the difficulties and bring healing and satisfaction to both people in the relationship.
